"We were so wrong about tilapia; it was absolutely the best fish I have ever eaten in my life and I got it from Fein Catch! There is nothing else like it on this earth— YOU GOT TO TRY IT." - K.P. Middleton (Caterer)

Belize's Premier Tilapia Farm

What We Do

- Dedicated to the production, processing and marketing of fresh tilapia fillet to various markets
- Total Annual Production Capacity: 3,500 Metric Tons
- Expected Labor Force: More than 90 employees (farm & plant)

Our Process

- Production is vertically integrated from brood stock to market size
- Two production programs: Semi Intensive - Big fish for fillet & semi intensive - medium size for whole fish
- Farm is responsible for producing fish weighing around 900 grams
- Premium fillet are of standard sizes weighing around 5 to 7 ounces which are of the highest quality and totally boneless. They can be available with skin when requested
- Whole fish weights around 450 to 500 grams while biggest available fishes are around 900 grams. They are available not gutted, with or without gill and without scales

Our Success Stories

Premium quality tilapia is achieved because of:

- The Nile fish that we breed
- The standards we use (HACCP)
- FDA Registered
- The high protein food we feed several times a day

Who We Are

- A subsidiary of The Feinstein Group of Companies
- Registered office is located at No. 3 Eyre Street, Belize City, Belize
- Farm (production facility) is at La Democracia Village, Mile 31 on the George Price Highway, Belize District, Belize
- Certificate of Compliance from the Ministry of Economic Development, Commerce, Industry and Consumer Protection which authorizes the company to cultivate and process tilapia fish
